

# SUTIC RESEARCH BULLETIN

## Mechanical Engineering

### Table of Content

2007–2014

Volume 3

No. 1

- 1** An equivalent electrical circuit design for pipeline corrosion monitoring based on piezoelectric elements  
M. Kolbadinejad, A. Zabihollah, A.A. Khayyat, M. Mahmoudpour  
Journal of Mechanical Science and Technology 27 (2013) 799–804.
- 7** Approximate analytical solutions of an axially moving spacecraft appendage subjected to tip mass  
P. Bagheri Ghaleh, A.A. Khayyat, Y. Farjami, A. Abedian  
Proceedings of the Institution of Mechanical Engineers, Part G: Journal of Aerospace Engineering doi.org/10.1177/0954410013494140 (2013) 1–11.
- 18** A fast kinematic-based control method for lower limb power augmentation exoskeleton  
A. Taherifar, G.R. Vossoughi, A.S. Ghafari, M. Jokar  
International Conference on Robotics and Mechatronics  
DOI:10.13140/2.1.5152.1922 IEEE (2014).
- 24** A computational model for health monitoring of storage tanks using fiber Bragg grating optical fiber  
Gh. Ilkhani Sarkandi, A. Zabihollah  
Journal of Civil Structural Health Monitoring 1 (2011) 97–102.
- 30** A failure control method for smart composite morphing airfoil by piezoelectric actuator  
Sh. Zareie, A. Zabihollah  
Transactions of the Canadian Society for Mechanical Engineering (2011) 35.
- 43** Dynamic response of laminated hybrid composite beams reinforced with high weight fraction of nano composites  
A. Zabihollah, M.H. Pol, A.S. Ghafari, S. Momeni  
Modares Mechanical Engineering 13 (2014) 150–153.
- 47** Buckling analysis of tapered composite beams using a higher order finite element formulation  
A. Zabihollah, R. Ganesan  
Journal of Reinforced Plastic and Composites 29 (2010).
- 68** Corrosion detection in pipes by piezoelectric sensors using artificial neural network  
H. Rafezi, B. Rahmani  
Advanced Materials Research 403-408 (2012) 748–752.

- 74** Design and analysis of an innovative light tracking device based on opto-thermo-electro-mechanical actuators  
M. Mahmoudpour, A. Zabihollah, M. Vesaghi, M. Kolbadinejad  
Microelectronic Engineering 119 (2014) 37–43.
- 81** Direct torque control of brushless doubly fed induction machine  
S.J. Fattahi, A.A. Khayyat  
Power Electronics Electrical Drives Automation and Motion (2010).
- 93** Experimental study of internal forced convection of ferrofluid flow in porous media  
A. Sehat, H. Sadrhosseini, M. Behshad Shafii  
Defect and Diffusion Forum 348 (2014) 139–146.
- 101** Effect of magnetic field on internal forced convection of ferrofluid flow in porous media  
H. Sadrhosseini, A. Sehat, M.B. Shafii  
Experimental Heat Transfer 29 (2014) 1–16.
- 117** Effects of structural configuration on vibration control of smart laminated beams under random excitation  
A. Zabihollah  
Journal of Mechanical Science and Technology 24 (2010) 1119–1125.
- 124** Efficient design of a torque actuator for lower extremity exoskeleton based on muscle function analysis  
S. Safavi, A.S. Ghafari, A. Meghdari  
Advance Materials Research 328-330 (2011) 1041–1044.
- 129** Experiment of new laboratory prototyped magneto-rheological dampers on a light commercial vehicle using neuro-fuzzy algorithm  
S.H. Zareh, F. Matbou, A.A. Khayyat  
Journal of Vibration and Control 21 (2014) 3007–3019.
- 142** Effects of nano-particles concentration on dynamic response of laminated nanocomposite beam,  
M.H. Pol, A. Zabihollah, S. Zareie, G. Liaghat  
Mechanica 19 (2013) 53–57.
- 147** Fork-shaped highly conductive pathways for maximum cooling in a heat generating piece,  
M.R. Hajmohammadi, V. Alizadeh, M. Moezzinajafabadi, M. Daneshi  
Applied Thermal Engineering 61 (2013) 228–235.
- 155** Fuzzy Inverse model of magnetorheological dampers for semi-active vibration control of an eleven-degrees of freedom suspension system  
S.H. Zareh, A.A. Khayyat  
Journal of System Design and Dynamics 5 (2011) 1485–1497.
- 168** Intelligent mobile robot navigation in an uncertain dynamic environment  
A. Azizi, F. Entesari, K. Ghaemi Osgouie, M. Cheragh  
Applied Mechanics and Materials 367 (2013) 388–392.
- 174** Introducing neural networks as a computational intelligent technique  
A. Azizi, F. Entessari, K. Ghaemi Osgouie, A. Rezaei Rashnoodi  
Applied Mechanics and Materials 464 (2014) 369–374.

- 181** Intelligent semi-active vibration control of eleven degrees of freedom suspension system using magnetorheological dampers  
S.H. Zareh, A. Sarrafan, A.A. Khayyat, A. Zabihollah  
Journal of Mechanical Science and Technology 26 (2012) 323–334.
- 193** LQR and fuzzy controller application with Bingham modified model in semi active vibration control of 11-DOFs full car suspension system  
S.H. Zareh, A. Fellahjahromi, R. Hayeri, A.A. Khayyat, A. Zabihollah  
GSTF International Journal on Computing 1 (2011).
- 199** Modeling of melatonin behavior in major depression: A fuzzy logic modeling  
A. Azizi, K. Ghaemi Osgouie, S. Rashidnejhad, M. Cheragh  
Applied Mechanics and Materials 367 (2013) 317–321.
- 205** Modular framework kinematic and fuzzy reward reinforcement learning analysis of a radially symmetric six-legged robot  
M. Shahriari, K. Ghaemi Osgouie, A.A. Khayyat  
Life Science Journal 10 (2013).
- 215** Neuro-fuzzy control strategy for an offshore steel jacket platform subjected to wave-induced forces using magnetorheological dampers  
A. Sarrafan, S.H. Zareh, A.A. Khayyat, A. Zabihollah  
Journal of Mechanical Science and Technology 26 (2012) 1179–1196.
- 233** Optimization of kinematic redundancy and workspace analysis of a dual-arm cam-lock robot  
B. Rezaeian Jouybari, K. Ghaemi Osgouie, A. Meghdari  
Robotica (2014) 1–20.
- 253** Optimal PID control of a nano-Newton CMOS-MEMS capacitive force sensor for biomedical applications  
R.J. Mozhdehi, A.S. Ghafari  
Mechanics & Industry 15 (2014) 139–145.
- 260** Optimal balancing of a 3-RPS robot manipulator using genetic algorithm  
H. Javaherchi, K. Ghaemi Osgouie, A.A. Khayyat  
Applied Mechanics and Materials 390 (2013) 377–382.
- 266** Smooth trajectory planning for 3-UPU parallel manipulator  
K. Ghaem Osgouie, A.H. Asfia, M.H. Sadooghi, A.A. Kazemabadi  
Applied Mechanics and Materials 464 (2014) 285–292.
- 275** Vibration monitoring of wind turbine blade using fiber bragg grating  
S.J. Fattahi, A. Zabihollah, S. Zareie  
Wind Engineering 34 (2010) 721–732.
